

COL-ENG-POL-0147 - Policy Overview Statement

This policy is mandatory and replaces all existing MOC policies in place. Collins Aerospace will implement this policy through a procedure, collecting data and showing compliance using electronic methods or forms. It defines the requirement to manage, approve and report Materials of Concern (MoC) that are specified for use in our products and our vendor designed and supplied items.

Vendors, which design parts for use in our products, shall be responsible for compliance with the requirements of this policy and the associated supporting procedure.
