## 1.0 SCOPE

This specification provides information defining the required identification of GOODRICH seat assemblies, cushion assemblies, cover assemblies, cushion-cover assemblies and other miscellaneous components. This document lists the most current marking information based on FAA and GOODRICH requirements as determined by GOODRICH engineering. This document does not supersede specific drawing label requirements and should be used as a guide to determine what information should be marked for the applicable components only when no marking information is defined on the revision controlled drawing.

**Note:** *Drawings typically list the marking requirements that were originally determined when the seat or component was first developed for production, which may differ from those listed in this document. These historical requirements are valid and should not be substituted with the requirements in this document unless indicated by GOODRICH engineering. Drawings shall be updated with the current requirements by GOODRICH engineering during subsequent revisions as applicable.*

## 1.1 Document Structure

This document is divided into the following primary sections:

SECTION [3.0](#): Seats Certified to TSO-C39

SECTION [4.0](#): Seats Certified to TSO-C39b

SECTION [5.0](#): Seats Certified to TSO-C127

SECTION [6.0](#): Seats Certified to TSO-C127a

SECTION [7.0](#): Seats Certified to TSO-C127b

SECTION [8.0](#): Cushions Certified to TSO-C72c

SECTION [9.0](#): Deviations from Standard Upholstery Marking Requirements

SECTION [10.0](#): Miscellaneous Upholstery Items

Each major Seat TSO section (3.0 through 7.0) is further subdivided into requirements for seat labels, labels for seat cushion-cover assemblies, labels for seat covers and seat cushions, markings for easily removable or interchangeable components (TSO-C127 and higher only), and drawing notes. This document identifies the minimum markings necessary to fulfill FAA and GOODRICH requirements.

## 1.2 Definitions

- **CUSHION-COVER ASSEMBLIES:** Component assembly consisting of a cover component and cushion component. May also be referred to as “CUSHION AND COVER ASSEMBLY” or “CUSHION/COVER ASSEMBLY.”
- **CUSHION ASSEMBLY:** Principal cushion component primarily composed of foam and used in upholstery assemblies on GOODRICH seats. The term

“CUSHION ASSEMBLY” includes stand-alone foam units, fire-blocked foam units, and muslin-covered foam units.

- COVER ASSEMBLY: Principal cover component used in upholstery assemblies on GOODRICH seat assemblies. The COVER ASSEMBLY wraps around applicable cushion units and may also wrap around portions of the seat assembly.
- EASILY REMOVABLE OR INTERCHANGEABLE: Able to be removed without hand tools.
- PRIMARY UPHOLSTERY COMPONENTS: Those upholstery components which constitute elements in the primary load paths of a seat relative to applicable FAA requirements. These components include headrests, backrests, seat pans, and leg rests.
- MISCELLANEOUS UPHOLSTERY ITEMS: Those upholstery components which do not constitute elements in the primary load paths of a seat relative to applicable FAA requirements. These components include armrest cushions/pads, wall pads, edge pads, literature pockets, and other components as designated by GOODRICH engineering.

## 1.3 General Part Marking Guidelines

### 1.3.1 Seat Label Requirements

Seat labels are typically applied to the seat structure as mandated by the GOODRICH drawing and applicable customer requirements. There may be anywhere from 1 to 3 seat labels which together capture all requirements. Number and placement of the labels depends upon the physical location where the labels are to be applied and the amount of required information based on each seat model’s marking requirements.

### 1.3.2 Labels for Cushion-Cover Assemblies, Covers, and Cushions

Requirements for cushion-cover assemblies, covers, and cushions located in each major Seat TSO section refer to those which constitute PRIMARY UPHOLSTERY COMPONENTS of each seat model (i.e. headrests, backrests, seat pans, and leg rests). Miscellaneous upholstery items are covered in SECTION 10.0 and include armrest assemblies, wall pads, edge pads, and literature pockets containing upholstery which do not constitute primary components relevant to seat certification. Labels for upholstery are typically either sewn or glued to the cushions/covers as required.

Note: See section 1.4 to determine the applicable Seat TSO related to each seat model and PRIMARY UPHOLSTERY COMPONENTS.

There are typically three labels attached to the cover assembly:

- Cushion-Cover Assembly Label
- Cover Label
- Upholstery Certification Label

There are typically two labels attached to the cushion assembly:

- Cushion Label
- Upholstery Certification Label

Deviations from the typical label structure are described in SECTION 9.0. Deviations most often occur when one or more of the following situations apply:

- The cushion-cover assembly and cover assembly are not controlled by the same engineering drawing
- No separate cushion part number/cover part number exists (i.e. the cushion material is permanently attached to the cover during assembly resulting in a stand-alone cushion-cover assembly component)
- No separate cushion-cover assembly part number exists (i.e. the cover assembly and cushion assembly directly report to a higher level assembly without a cushion-cover subassembly).

### *1.3.3 Markings for Easily Removable or Interchangeable Parts*

Easily removable or interchangeable parts are defined as those which can easily be removed without hand tools and may include components such as leg rest structures (excluding upholstery), life vest straps, and seat pan inserts. Typical markings are applied using a laser scribe, ink stamp, or fabric label adhered to the part as required by the applicable drawing or GOODRICH specification.

Note: Although upholstery items are considered easily removable, they have specific marking requirements that are covered in the applicable Seat TSO section or in SECTION 10.0 for miscellaneous upholstery items.

### *1.3.5 Markings for TSO-C72c*

Cushion-Cover assemblies that are certified to TSO-C72c meet flotation requirements as defined by the FAA. These cushion-cover assemblies require unique markings in addition to those defined in each applicable major Seat TSO section.

### *1.3.4 Markings for Miscellaneous Upholstery Items*

Markings for MISCELLANEOUS UPHOLSTERY ITEMS as defined in section 1.2 can be found in SECTION 10.0.

#### **1.4 Seat TSO Certification**

The following tables shall be used to determine the applicable sections of this specification for a specific seat model or component based on the TSO certification of the applicable seat model. For SEAT TSO identification of a specific component, the applicable seat model can be found in the title block of the part drawing. For seat models certified after the addition of this table, the identification requirements will be specified on the part drawing to meet the requirements of this specification.

- Tables 1 through 5 list all commercial transport seat models under the applicable TSO and section number.
- Table 6 lists helicopter transport seat models along with its applicable TSO and section number.

Note: For identification of a specific part, the applicable seat model can be found in the title block of the part drawing.

Note: Per FAA AIR-100 Policy Memo dated 15 February 2000, backward compatible labeling for seat cushions and covers is acceptable. For example, seat cushions and covers that have been approved to TSO-C127a are acceptable for use on seats approved to TSO-C127, TSO-C39b, and TSO-C39.

Note: Per FAA AIR-100 Policy Memo dated 15 February 2000, it is acceptable to replace “Complies with FAR 25.853(c), effective 11/26/84” as stated in TSO-C39b, TSO-C127, and TSO-C72c with “Complies with 14 CFR 25.853(c), effective 3/6/95” on seat cushions since the requirements under each set of regulations have remained the same for seat cushions.

### 3.1 Seat Labels

#### 3.1.1 Required FAA Markings per TSO-C39 and NAS809

- a) Manufacturer Name and Address:

**GOODRICH**

**1275 N NEWPORT ROAD**

**COLORADO SPRINGS, CO 80916**

- b) Name, Type, Seat Part Number or Model Designation, e.g.,

**TYPE I - FWD/AFT FACING ATTENDANT SEAT**

**GOODRICH PART NO 1056-506**

- c) Serial Number or Date of Manufacture or both, e.g.,

**MFG DATE 9/24/99      SER NO 046**

- d) Applicable TSO Number

**COMPLIES WITH FAA TSO-C39**

- e) National Aircraft Standard Number

**NAS809**

#### 3.1.2 Required GOODRICH Markings

- a) Block for GOODRICH Quality stamps

- b) Both Serial Number and Date of Manufacture (See Section 3.1.1.c)

- c) For Cabin Attendant and Observer Seats,

**COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95**

- d) For Pilot/Co-Pilot Seats, determine which of the following two statements is applicable for the seat model:

**COMPLIES WITH 14 CFR 25.853(a) EFF 3/6/95**

**COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95**

- e) GOODRICH Cage Code

**FSCM 31218**

#### 3.1.3 Typical Optional Markings (usually requested in customer specifications)

Collins Aerospace Proprietary. This document contains no export controlled technical data.

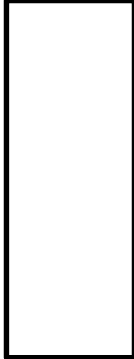

**Hard Copy is not a controlled document.**

**Verify the current revision in the electronic released directory.**

- a) Equivalent customer seat part number, e.g.,  
**BOEING PART NUMBER S414A201-06301AA**
- b) Seat Weight or Maximum Allowable Seat Weight  
**WEIGHT: XX.XX LBS**
- c) Static Load Factors above those specified in 14 CFR 25.561 (typically, the Flight and Ground Loads), e.g.,  
**7.5g DOWN, 4.5g UP, 9.0g AFT**

### 3.1.4 Sample Seat Label

This sample label is an example of a TSO-C39 seat label containing all of the required FAA and GOODRICH items. This example includes optional information that is specific to each seat model as defined in 3.1.3.

## 4.0 SEATS CERTIFIED TO TSO-C39B (9G STATIC)

### 4.1 Seat Labels

#### 4.1.1 Required FAA Markings per 14 CFR 21.607(d) & TSO-C39b

- a) Manufacturer Name and Address:

**GOODRICH**

**1275 N NEWPORT ROAD**

**COLORADO SPRINGS, CO 80916**

- b) Name, Type, Seat Part Number or Model Designation, e.g.,

**TYPE I - FWD/AFT FACING ATTENDANT SEAT**

**GOODRICH PART NO 2108-3AA**

- c) Serial Number or Date of Manufacture or both, e.g.,

**MFG DATE 9/24/99      SER NO 046**

- d) Applicable TSO Number

**COMPLIES WITH FAA TSO-C39b**

- e) For Cabin Attendant and Observer Seats,

**COMPLIES WITH 14 CFR 25.853(c), EFFECTIVE 3/6/95**

Note: Pilot/Co-Pilot Seats are exempt from meeting the requirements of 14 CFR 25.853 (c).

#### 4.1.2 Required GOODRICH Markings

- a) Block for GOODRICH Quality stamps

- b) Both Serial Number and Date of Manufacture (See Section 3.1.1.c)

- c) For Pilot/Co-Pilot Seats, determine which of the following two statements is applicable for the seat model:

**COMPLIES WITH 14 CFR 25.853(a) EFF 3/6/95**

**COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95**

- d) GOODRICH Cage Code

## 7.0 SEATS CERTIFIED TO TSO-C127B (16G DYNAMIC)

### 7.1 Seat Labels

#### 7.1.1 Required Markings per 14 CFR 45.15 (d) & TSO-C127b

- a) Manufacturer Name and Address:

**GOODRICH**

**1275 N. NEWPORT ROAD**

**COLORADO SPRING, CO 80916**

- b) Seat Model Number or Name and Seat Part Number, e.g.

**2777XXXXXXXXXX**

- c) Seat Assembly Serial Number, e.g.

**SER NO: XXXX-2777**

- d) Date of Manufacture of Seat Assembly

**MFG DATE 1/15/19**

- e) Applicable TSO Number

**COMPLIES WITH FAA TSO-C127b**

- f) Applicable Seat Specific Markings

Each of the following markings shall be written in succession separated by a "-":

- a. Seat Type ("TYPE A" for Airplane, "TYPE B" for Rotorcraft, "TYPE C" for Small Airplane)
- b. Aircraft Category ("T" for Transport, "N" for Normal, "U" for Utility, "A" for Acrobatic, or "C" for Commuter)
- c. Seat Subtype ("1" for Passenger, "2" for Flight Attendant, "3" for Observer, or "4" for Pilot/Copilot)
- d. Seat Facing Designation ("FF" for Forward Facing, or "RF" for Rearward Facing)
- e. Elective Criteria Paragraph Letter from TSO-C127b, Appendix 2 ("a" for Step Load on Baggage Bars, "b" for Flight Attendant Step Load, "c" for Testing to Higher Static Loads, "d" for Hand Holds, "e" for Flammability-Large Exposed Non-Metallic Parts)

*Example:* **TYPE A-T-2-FF-RF-C**

- g) Restraint System Part Number including Color Code

**RESTRAINT P/N: 5001-1-01A-2396**

- h) All Cushion and Cover Assembly Part Numbers including Color Code

**HEADREST CUSHION & COVER P/N: 4D7009-1XXX**

**BACKREST CUSHION & COVER P/N: 4D7008-XXXX**

**SEATPAN CUSHION & COVER P/N: 4D7007-1XXX**

Note: If no cushion-cover assembly part number exists, then use both the cover assembly and cushion assembly part numbers.

- i) Installation statement:

**SEE CMM FOR INSTALLATION LIMITATIONS**

### 7.1.2 *Required GOODRICH Markings*

- a) Block for GOODRICH Quality Stamps  
b) GOODRICH Cage Code

**FSCM 31218**

- c) For Cabin Attendant and Observer Seats

**COMPLIES WITH 14 CFR PART 25, APPENDIX F, PART II, EFFECTIVE 3/25/98**

Note: Pilot/Co-Pilot Seats are exempt from meeting the requirements of 14 CFR PART 25, APPENDIX F, PART II.

### 7.1.3 *Typical Optional Markings (usually requested in customer specifications)*

- a) Equivalent customer seat part number, e.g.

**CUSTOMER PART NO: 601R41071-1**

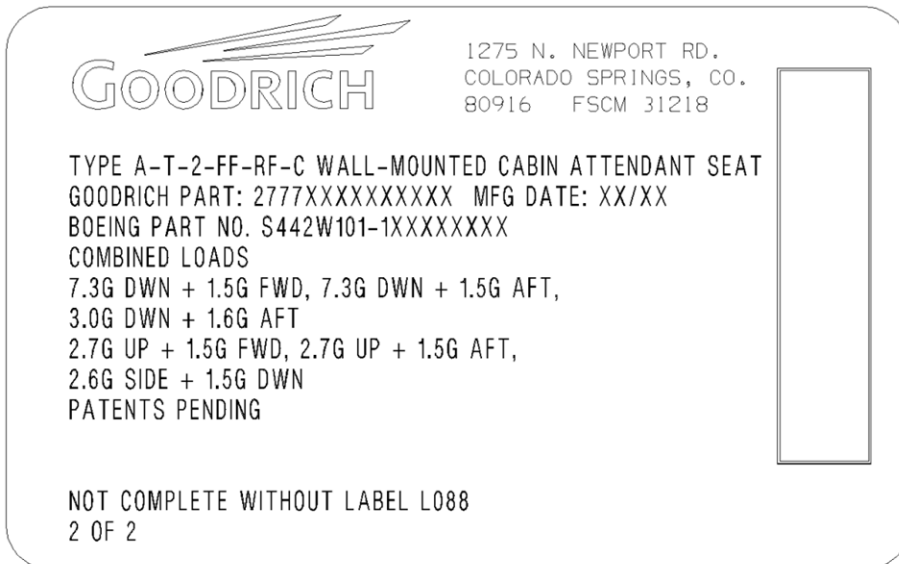

- b) Actual Seat Weight or Maximum Allowable Seat Weight

- c) Static Load Factors above those specified in 14 CFR 25.561 (typically the flight and ground loads), e.g.

**7.5g DOWN + 1.5g FWD, 7.3g DWN + 1.5g AFT**

### 7.1.4 *Sample Seat Label*

These sample labels are an example of TSO-C127b seat labels containing all of the required FAA and GOODRICH items when used in combination on the seat.

**7.2 Cushion-Cover Assembly Labels**

**7.2.1 Required FAA Markings per TSO-C127b**

- a) GOODRICH Name and Address
- b) Part Number including Color Code Designation, e.g.  
**4D7007-1XXX**
- c) Applicable TSO Number, i.e.,  
**COMPLIES WITH TSO-C127b**
- d) For Cabin Attendant and Observer Seats

**MEETS PROVISIONS OF 14 CFR PART 25, APPENDIX F, PART II, EFFECTIVE MARCH 25, 1998**

Note: Pilot/Co-Pilot Seats are exempt from meeting the requirements of 14 CFR 25.853 (c).

*7.2.2 Required GOODRICH Markings*

- a) 14 CFR 25.853(c) Flammability Compliance Statement for assembly:

**CUSHION-COVER ASSY [P/N] MEETS PROVISIONS OF 14 CFR PART 25, APPENDIX F, PART II, EFFECTIVE MARCH 25, 1998 WHEN THIS COVER [P/N] IS USED WITH CUSHION [P/N]**

Note: This statement applies to all Cabin Attendant and Observer Seat Cushion and Cover Assemblies and to those Pilot/Co-Pilot cushion and Cover Assemblies that have been tested to 14 CFR PART 25, APPENDIX F, PART II. For Cushion-Cover assemblies not tested to 14 CFR PART 25, APPENDIX F, PART II, the following statement shall be used:

**CUSHION-COVER ASSY [P/N] COMPLIES WITH 14 CFR 25.853(a), APPENDIX F, PART II, EFF 3/6/95 WHEN THIS COVER [P/N] IS USED WITH CUSHION [P/N]**

- b) Date of Manufacture  
c) GOODRICH Cage Code  
**FSCM 31218**  
d) Revision Level of Drawing  
e) Work Order Number, e.g.  
**WO # 11905/DOC # 11905**  
f) Purchase Order Number, e.g.  
**PO# 1112222**  
g) Type Marking

**TYPE A** (Commercial Transport Seating Only)

**TYPE B** (Helicopter Seating Only)

*7.2.3 Typical Optional Markings desired by GOODRICH or Customer*

- a) Customer Certification/Qualification Requirements  
b) Vendor's initials for Dress Cover Material (e.g., **CA** for Collins Aerospace)

*7.2.4 Sample Cushion-Cover Assembly Label*

This sample label is an example of a TSO-C127b cushion-cover assembly label containing all of the required FAA and GOODRICH items (when combined with the Upholstery Certification Label in 7.3.6).

### 7.3.6 *Sample Upholstery Certification Label*

This sample label is an example of a TSO-C127b Upholstery Certification label containing all of the required FAA and GOODRICH items. . This label shall be included on both the cover assembly and the cushion assembly.

## 7.4 **Easily Removable or Interchangeable Parts**

This section refers to easily removable parts (defined as being removable without the use of hand tools) and interchangeable parts (other than cushion and cover assemblies and the restraint system).

### 7.4.1 *Required FAA Markings per TSO-C127b*

- a) GOODRICH Name
- b) Part Number including Color Code Designation

**2E2023-5**

- c) Applicable TSO Marking

## 8.0 CUSHIONS CERTIFIED TO TSO-C72C (FLOTATION CUSHIONS)

### 8.1 Seat Labels

There is no seat label marking requirements pertinent to TSO-C72c as this TSO is not a seat level certification. This TSO is applicable to specific flotation cushion-cover assemblies.

### 8.2 Cushion-Cover Assembly Labels

TSO-C72c is certified based on the flotation system. Therefore, only cushion-cover assemblies are certified to TSO-C72c, and not individual cover assemblies or cushion assemblies unless specifically required by the customer.

All markings for TSO-C72c supplement the seat level TSO markings described elsewhere in this document.

#### 8.2.1 *Required Markings per 14 CFR 21.607 (d) & TSO-C72c*

- a) Manufacturer Name and Address:

**GOODRICH**

**1275 N. NEWPORT ROAD**

**COLORADO SPRING, CO 80916**

- b) Name, Type, Part Number or Model Designation

**TYPE I: FLOTATION CUSHION** (Used for TSO-C39 and TSO-C39b Commercial Transport Seat Cushions)

**TYPE IV: FLOTATION CUSHION** (Used for TSO-C39 and TSO-C39b Helicopter Seat Cushions)

**TYPE A: FLOTATION CUSHION** (Used for TSO-C127, TSO-C127a, and TSO-C127b Commercial Transport Seat Cushions)

**TYPE B: FLOTATION CUSHION** (Used for TSO-C127, TSO-C127a, and TSO-C127b Helicopter Seat Cushions)

**P/N 1C7005-1ABE**

- c) Date of Manufacture

**MFG DATE XX/XX/XX**

- d) Applicable TSO Statements

**COMPLIES WITH TSO-C72c**

And:

**COMPLIES WITH TSO-C127** (or other seat level TSO as applicable)

- e) For Cabin Attendant and Observer Seats

**COMPLIES WITH 14 CFR 25.853(c) EFFECTIVE 3/6/95**

Note: Pilot/Co-Pilot Seats are exempt from meeting the requirements of 14 CFR 25.853 (c).

*8.2.2 Required GOODRICH Markings*

- a) For Pilot/Co-Pilot Seats, determine which of the following statements is applicable for the seat model:

**COMPLIES WITH 14 CFR 25.853 (a) EFF 3/6/95**

**COMPLIES WITH 14 CFR 25.853 (c) EFF 3/6/95**

- b) 14 CFR 25.853(c) Flammability and TSO-C72c Compliance Statement for assembly:

**CUSHION-COVER ASSY P/N [P/N] COMPLIES WITH 14 CFR 25.853(c), EFF 3/6/95 AND TSO-C72C, WHEN THIS COVER [P/N] IS USED WITH CUSHION [P/N]**

Note: This statement applies to all Cabin Attendant and Observer Seat Cushion and Cover Assemblies and to those Pilot/Co-Pilot cushion and Cover Assemblies that have been tested to 14 CFR 25.853 (c).

- c) Revision Level of Cushion-Cover Assembly Drawing  
d) GOODRICH Cage Code

**FSCM 31218**

- e) Work Order Number, e.g.

**WO# 11905 / DOC# 11905**

- f) Purchase Order Number, e.g.

*8.2.3 Typical Optional Markings desired by GOODRICH or Customer*

- a) Customer Certification/Qualification Requirements  
b) Vendor's initials for Dress Cover Material (e.g., **CA** for Collins Aerospace)

*8.2.4 Sample Label*

This sample label is an example of a TSO-C72c flotation cushion-cover assembly label containing all of the required FAA and GOODRICH items in addition to those required by the applicable seat level TSO when combined with the applicable upholstery certification label. This label replaces the standard cushion-cover assembly label as described in each seat TSO Section:

### **8.3 Goodrich Required Drawing Notes**

#### *8.3.1 Seat Assembly Drawing Notes*

There are no seat label marking requirements pertinent to this TSO

#### *8.3.2 Cushion and Cover Assembly Drawing Notes*

The following notes shall be added to the drawing in addition to the applicable notes from each seat TSO section.

- a) TSO Compliance Statement

**THIS ASSEMBLY COMPLIES WITH TSO-C72c.**

## 9.0 DEVIATIONS FROM STANDARD UPHOLSTERY MARKING REQUIREMENTS

This section covers common situations which require deviations from the standard labeling requirements in each major seat TSO section for cushion-cover assemblies, cover assemblies, and cushion assemblies. These deviations shall be specified on the drawing label illustrations or in the drawing notes.

### 9.1 No Cushion-Cover Assembly

Some cover assemblies and cushion assemblies are used directly in the top level seat assembly and thus do not have an associated cushion-cover assembly part number. When no cushion-cover assembly exists, the cover assembly label shall adopt the requirements of the cushion-cover assembly as defined in each applicable TSO section.

#### 9.1.1 *Modification to 14 CFR 25.853(c) Flammability Compliance Statement*

- a) The cover assembly label shall include the flammability compliance statement used for cushion-cover assemblies, and shall be modified as follows:

*For TSO-C39, TSO-C39b, TSO-C127, and TSO-C127a:*

**COVER ASSY [P/N] COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95 WHEN USED WITH CUSHION [P/N].**

*For TSO-C127b:*

**COVER ASSY [P/N] MEETS THE PROVISIONS OF 14 CFR PART 25, APPENDIX F, PART II EFF MARCH 25, 1998 WHEN USED WITH CUSHION [P/N]**

- b) A similar modification shall be used for pilot/copilot seats not certified to 14 CFR 25.853(c):

**COVER ASSY [P/N] COMPLIES WITH 14 CFR 25.853(a) EFF 3/6/95 WHEN USED WITH CUSHION [P/N].**

- c) The 14 CFR 25.853(a) compliance statement, as mandated in the cover assembly sections of each TSO section, will be disregarded except as described in part (b) above. Compliance to 14 CFR 25.853(c) implies compliance to 14 CFR 25.853(a).

#### 9.1.2 *Sample Cover Assembly Label*

This sample label is an example of a cover assembly label which adopts the necessary modifications for when a cushion-cover assembly does not exist.

## 9.2 No Unique Cushion Assembly or Cover Assembly

Some cushion-cover assemblies are constructed with the foam cushion material permanently affixed to the cover material with no separate individual cushion unit. These are most easily identified when there is no GOODRICH cushion part number/cover part number listed on the Bill of materials for the cushion-cover assembly.

### 9.2.1 Modification to 14 CFR 25.853(c) Flammability Compliance Statement

- a) The flammability compliance statement on the cushion-cover assembly (or cover assembly) shall be modified to remove reference to a specific cushion part number and cover part number as follows:

*For TSO-C39, TSO-C39b, TSO-C127, and TSO-C127a:*

**CUSHION-COVER ASSY [P/N] COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95**

*For TSO-C127b:*

**CUSHION-COVER ASSY [P/N] MEETS PROVISIONS OF 14 CFR PART 25, APPENDIX F, PART II, EFFECTIVE MARCH 25, 1998**

- b) A similar modification shall be used for pilot/copilot seats not certified to 14 CFR 25.853(c):

**CUSHION-COVER ASSY [P/N] COMPLIES WITH 14 CFR 25.853(a) EFF 3/6/95**

### 9.3 Cushion-Cover Assembly and Cover Assembly are Separately Controlled

Most cushion-cover assemblies and cover assemblies are defined on a single controlled engineering drawing and label markings conform to the applicable TSO and GOODRICH requirements based on both assemblies remaining on the same revision level. However, in some instances, the cushion-cover assembly and cover assembly may be separated into two distinct engineering drawings with independently controlled revision levels. This most frequently occurs when there are additional significant structural components that make up the assembly outside of the typical cushion assembly and cover assembly. Examples of this type of structure include a padded headrest door assembly and a seat pan cushion-cover assembly which includes a plastic insert.

#### 9.3.1 Modification to 14 CFR 25.853(c) Flammability Compliance Statement

- a) The flammability compliance statement on the cushion-cover assembly shall be modified to indicate that the “CUSHION/COVER COMBINATION” complies with the flammability statement as follows:

*For TSO-C39, TSO-C39b, TSO-C127, and TSO-C127a:*

**CUSHION/COVER COMBINATION COMPLIES WITH 14 CFR 25.853(c) EFF 3/6/95  
WHEN THIS COVER [P/N] IS USED WITH CUSHION [P/N]**

*For TSO-C127b:*

APPENDIX F, PART II EFF MARCH 25, 1998 WHEN THIS COVER [P/N] IS USED WITH  
CUSHION [P/N]**

- b) A similar modification shall be used for pilot/copilot seats not certified to 14 CFR 25.853(c):

## 10.0 MISCELLANEOUS UPHOLSTERY ITEMS

This section covers miscellaneous items, such as armrest cushions/pads, edge pads, wall pads, and literature pockets that do not constitute principal components of the seat as defined in section 1.1.2. These items also may include components carrying a PMA (Parts Manufacturer Approval) indicated by “-PMA” at the end of the GOODRICH part number.

### 10.1 Marking Requirements

#### 10.1.1 Required Goodrich Markings

- a) GOODRICH Name
- b) Part Number
